If you buy it to use or register it in the EU, it must be imported and VAT and, where applicable, import duties paid. For guidance only: check with your adviser

How I see it

A 2023 SKIPPER 34 NC, a sporty RIB of almost 10 m with a black hull and black upholstery. Centre console with T-top and jockey seats in two rows, aft bench and bow sunpad.

It has twin Mercury 300 Pro XS V8 petrol outboards, with about 635 hours and full service history, according to the seller. The hours and maintenance are confirmed with the papers before reserving.

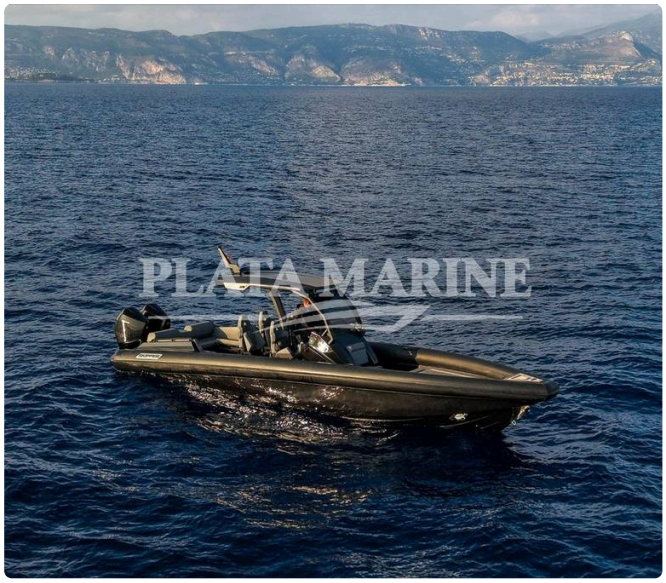

It comes very well equipped: solid teak flooring, carbon-fibre dashboard, 12" Simrad display with VHF, charts and AIS, JL Audio sound with subwoofer, bow thruster and windlass, fridge in the aft bench, toilet in the console, freshwater shower, aft sun cover with carbon poles and covers.

It is in Livorno, Italy, and is sold by a company. The price, €179,990, excludes VAT: according to the seller it is under temporary admission in the EU until April 2028, so if you buy it to use in the EU it must be imported and VAT and, where applicable, import duties paid. At 9.95 m according to the builder, you need the Spanish PER licence or higher; the registered length is confirmed with the papers.

Before reserving, I would do a sea trial and an independent survey.
