My take

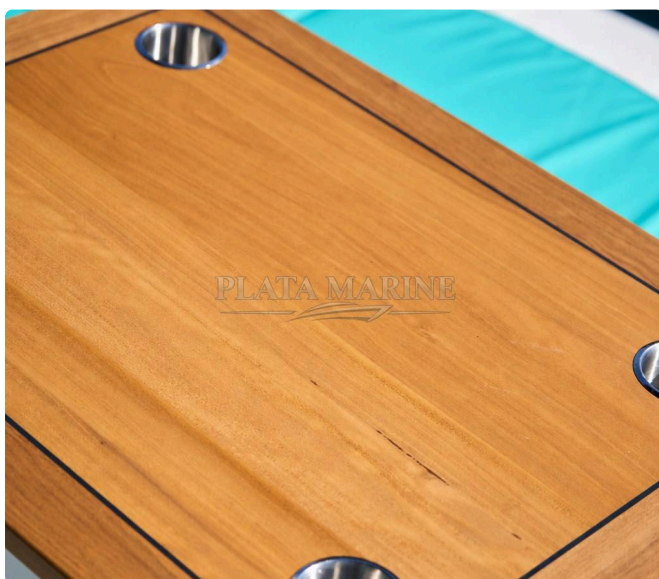

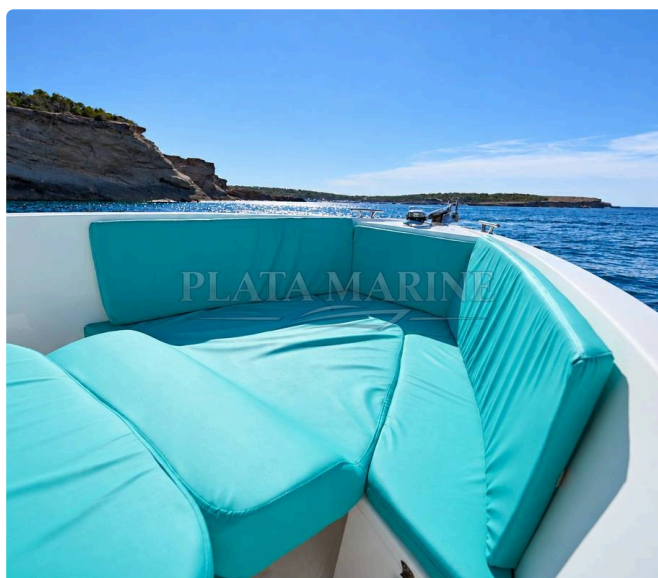

A 2021 Cattleya X6 that has been working as a charter boat in Ibiza, and you can tell from how it is set up: a custom stainless-steel hard-top, a bow sunbed with cushions and upholstery new in 2026, a removable wooden table and a fresh-water shower. It is a simple, roomy day boat made for going out to the coves.

The engine is a Tohatsu 150 hp outboard fitted new in June 2026 with around 145 hours, so the mechanical side is close to brand new. The electric windlass is also from 2026. It carries a multifunction sounder/GPS, Bluetooth audio with four Fusion speakers, ambient and underwater LED lights and two batteries.

Who I see it suiting is someone who wants to carry on with the charter activity: the owner talks about around 80 outings a season, and there is the option of taking over the rented berth in Ibiza and the business as it is set up. Those terms are explained to anyone interested; the advertised price is for the boat. It also works, of course, for private use.

It measures 5.98 m in length with a 2.45 m beam, is certified for 8 people and can be skippered with the Navigation Licence or a higher qualification. The engine is still under factory warranty until May 2028, which can be passed on to the buyer, and the boat is delivered with a freshly passed ITB. It is in
