Used boat price report

Asking prices in listings, by model and by year

The first thing almost everyone asks, buying or selling, is what a boat is worth. Here are the ranges I work with for the used models that sell most on the Catalan coast, taken from real listings and reviewed every month. They are asking prices, not closing prices: they tell you whether a listing is in line with the market or not.

Ranges by model

Model	Type	Length	From	Up to
Quicksilver Activ 605 Open	Centre-console open	6.46 m	€20,000	€48,000
Beneteau Flyer 6.6 SPACEdeck	Centre-console open	6.7 m	€26,000	€43,000
Jeanneau Cap Camarat 6.5 CC	Centre-console open	6.86 m	€26,000	€60,000
Quicksilver Activ 675 Sundeck	Sundeck	7.16 m	€25,000	€55,000
Jeanneau Cap Camarat 7.5 WA	Walkaround	7.19 m	€32,000	€100,000
Jeanneau Merry Fisher 795	Pilothouse	7.43 m	€45,000	€105,000
Beneteau Flyer 7.7 SUNdeck	Sundeck	7.64 m	€41,000	€72,500
Beneteau Antares 8	Pilothouse	8 m	€45,000	€110,000
Beneteau Flyer 8 SUNdeck	Sundeck	8.17 m	€60,000	€92,500
Bavaria 27 Sport	Cabin cruiser	8.35 m	€35,000	€67,000
Jeanneau Cap Camarat 8.5 WA	Walkaround	8.4 m	€60,000	€120,000 +
Jeanneau Merry Fisher 895	Pilothouse	8.9 m	€95,000	€180,000

"From" is the lowest price we see on the oldest units and "Up to" the highest on the most recent ones. When a model is still in production, a nearly new unit gets close to list price. Engine included.

What these ranges do not tell you: they are not closing prices or valuations; each range groups units with different engines, equipment and condition, which is why it is wide. When there are not enough listings for a model or certain years, I prefer not to give a figure and to value it by hand.

By boat type

Type	Lengths	Usual range
Centre-console open	6.46 to 6.86 m	€20,000 to €60,000
Sundeck	7.16 to 8.17 m	€25,000 to €92,500
Walkaround	7.19 to 8.4 m	€32,000 to €120,000
Pilothouse	7.43 to 8.9 m	€45,000 to €180,000
Cabin cruiser	8.35 m	€35,000 to €67,000

What pushes the price up or down

- **Year and series.** A new series (V2, Series 2) usually means a clear jump in price.
- **Engine and hours.** The same length with a more powerful engine or low documented hours can be worth quite a bit more.
- **Service history with invoices.** Servicing, antifouling and electronics backed by invoices: buyers pay more for no surprises.
- **Paperwork.** Valid ITB inspection, Spanish flag and taxes paid; an imported boat not registered here over 8 metres carries a 12% tax.
- **Berth.** A transferable berth in an area with waiting lists adds value.

Where these numbers come from

Every month I go through the listings for each model on Spanish and European portals, drop duplicates and boats that have not been updated for months, and keep the range where most of the supply sits. It is the seller's asking price: the closing price is usually lower, and how much lower depends on the boat's real condition. For a specific boat, what counts is a valuation with its own details.

What about your boat?

The calculator shows the range for your model and year in a minute. If your model is not there, or you would like a view based on your details (engine, hours, marina), message me and we will look at it.
